# County of San Luis Obispo

TO: Board of Supervisors

FROM: Sheriff - Coroner / Ian Parkinson/781-4540

DATE: 9/9/2014

SUBJECT: Request to approve a contract with DataWorks Plus, LLC, in the amount of \$50,000 from CAL-ID funds to purchase a booking photograph repository system. All Districts.

## **RECOMMENDATION**

It is recommended that the Board approve a contract with DataWorks Plus, LLC, in the amount of \$50,000 from CAL-ID funds to purchase a booking photograph repository system.

## **DISCUSSION**

### Overview

The County Jail's current photograph repository system, which is used to identify inmates, is in need of replacement. This project is included in the Sheriff's FY 2014-15 budget and is fully funded from the CAL-ID program trust account. A vendor, DataWorks Plus, LLC, has been selected and approved by the CAL-ID Board to provide the replacement system.

### Background

The California Identification System (Cal-ID) is an automated system maintained by the California Department of Justice for retaining fingerprint files and identifying latent fingerprints. Under State law, passed in 1985, (Penal Code § 11112.1 et. Seq.), local law enforcement agencies were allowed to access this system through direct access to the State fingerprint data base. In December 1987 the Board of Supervisors adopted a resolution to establish a Remote Access Network Committee as outlined in Penal Code 11112, which became known as the CAL-ID Board. The funding for the CAL-ID program is derived by assessing fifty cents for every ten dollars of criminal or traffic fines, and depositing the funds into the CAL-ID trust fund. These funds may be used for the purchase of fingerprint identification equipment, digital photographic equipment, or other equipment for the booking process.

In February 1997, the Legislature approved SB 720 authorizing the collection of a one dollar fee for each vehicle registered in the county to fund the CAL-ID System, following a resolution implementing the authorization by the Board of Supervisors. The legislation requires that the funds be utilized for identifying individuals utilizing fingerprints and photographs, and to fund the legislative mandates requiring criminal history checks for persons having access to children. Each year a report is submitted to State Controller's Office detailing the expenditures and explains how the motoring public is benefitted.

On January 5, 2010, your Board reauthorized a \$1.00 fee on private vehicles and \$2.00 fee on commercial vehicles registered in the County for continued funding of the CAL-ID program. The monies derived from this fee must be expended to promote fingerprint and photographic identification systems and programs.

### Request

The current photograph repository system is outdated, not compatible with future technology and a maintenance agreement for repair or upgrade is not available. A photograph repository system is an essential component in jail security. Photographs are utilized by jail staff to visually identify inmates at times of movement and most critically, at time of release. This system will also integrate with patrol functions by making photographs available to field personnel. The requested system will integrate with current jail and field data information system.

In preparation for this contract, a Request for Proposal (RFP-1229) was issued by County Purchasing and provided to vendors in California Booking Photograph Repositories. The responses were reviewed by County Purchasing and the

Cal-ID Coordinator for completeness and then submitted to a committee made up of the CAL-ID Coordinator and the Sheriff's Automation Group.

Proposals were received from DataWorks Plus, Dynamic Imaging Systems and MOSA Technology Solutions. The lowest responsive proposal was submitted by DataWorks Plus.

DataWorks Plus	\$52,500.00
Dynamic Imaging Systems	\$55,080.00
MOSA Technology Solutions	\$55,971.00

In defining the terms of the contract, the number of concurrent users was reduced which brought the DataWorks Plus contract to \$50,000. A similar change applied to the competing proposals, based on their responses to the RFP, did not change the order of the responses.

#### **OTHER AGENCY INVOLVEMENT/IMPACT**

County Counsel has reviewed the attached contract, and approved it as to form and content.

The CAL-ID Advisory Board has met and voted to recommend this purchase and vendor. The CAL-ID Board is comprised of District Attorney Gerald Shea, Sheriff-Coroner Ian Parkinson, District 1 Supervisor Frank Mecham, San Luis Obispo Police Chief Steve Gesell, Atascadero Chief Jerel Haley, San Luis Obispo Mayor Jan Marx, and Member-at-Large Jenifer Rhymes.

The following agencies continue to receive support from the CAL-ID Program:

San Luis Obispo Sheriff's Department	Arroyo Grande Police Department
Paso Robles Police Department	Grover Beach Police Department
Atascadero Police Department	Cuesta College Police Department
San Luis Obispo Police Department	San Luis Obispo County Board of Education
Morro Bay Police Department	San Luis Obispo County Probation
Pismo Beach Police Department	Cal Poly Police Department
San Luis Obispo County YMCA	

#### **FINANCIAL CONSIDERATIONS**

A total of \$50,000 is budgeted in FY 2014-15 for the purchase of the booking photograph repository system. The CAL-ID fund, supported by the CAL-ID vehicle registration fee, will fully fund this purchase, and the annual maintenance cost following implementation, estimated to be \$6,000 per year. This purchase will have no impact on the General Fund and the system was added to the Sheriff-Coroner's fixed asset list through the annual budgeting process.

#### **RESULTS**

The purchase of this photograph repository system will continue the current practices of using photographs within the jail, and is another step in providing all peace officers in the field with the capability of quickly identifying individuals utilizing facial recognition technology from their patrol vehicles. By using photographs in conjunction with other current technology, this system will contribute to the County's community-wide goal of a Safe Community.
